You can download these best standards right away and start editing images with Lightroom Mobile App & Lightroom Classic. Most of these presets don't require making adjustments, but it's a good idea to adjust the settings for highlights, exposure, contrast, etc. to make sure these presets work exactly the way you want. Apart from just visiting the download pages of these presets, do check the websites for websites for more free mobile lightroom presets. Lightroom Mobile Presets (. Lightroom Mobile Presets (. DNG format) VS Lightroom Desktop Presets (. XMP format) Lightroom mobile presets are based on images that come with previously used settings. The free presets that you will download from the links below will be . DNG format and you just need to copy the settings from these files and paste them into your photos lightroom mobile app to make them work. Since Lightroom Desktop Presets are not images they have files coming with. XMP format and exports the new Adobe Lightroom CC Classic. Mobile presets are created in lightroom classic and exported to them . DNG format so we can use them with lightroom mobile app. Whether it's mobile or desktop presets, they both work for themselves, but the only difference is you need DNG files to use them on mobile... use them on the desktop you need . XMP files. In addition, you need a Lightroom subscription to use the original settings on your desktop, but you don't have to pay to use presets with Lightroom Mobile because it's free to use. How to install Lightroom Presets on your desktop It is very easy to import presets Lightroom Classic. 1. Open Lightroom Classic, go to File &t; Import photos and videos. 2. Now import some photos and select one of the imported photos. 3. Select Develop mode in the upper-right corner of the screen, click (+) under the Presets tab, and select Import Presets. 4. Look for .xmp standards, select them, and import the original settings. Welcome to our Free Lightroom Presets page! Every week , we give away a free item from one of our collections so you can try them out. Also check out our YouTube channel where we announce each standard and show you all the free pre-set kits in action. Updated: May 29th, 2020Our Freebie presets are 100% free to download and use personal or commercial work, you can also add them to your site your readers to download - please contact us if you are interested in a business partnership. You can contact us to find out how this license agreement works. We also provide instructions on how to install mobile Lightroom in its original settings. The free version of Lightroom that is available for iPhone and Android is very powerful and many of the same features on the desktop version of Lightroom can be found on the mobile version. Mobile Lightroom presets are very popular among social media influencers because presets allow them to create more custom and personalize the watch on their social posts. We work with influencers to create custom Lightroom pre-set packages that they can give or sell to the audience. Take a look below where we have presets for all kinds of photography, please don't forget to tell us what you think about them, leaving a review at the bottom – thanks! What is LightroomLightroom is a very popular piece of software created by Adobe photographers that allows them to do 3 features. You can use it as a tool in the Picture Library to manage and organize all your photos, you can also use it to design and edit these photos in JPG or RAW format, and finally it's for exporting those pictures. Lightroom presets provide the perfect workflow automation option for professionals and enthusiasts. What is Lightroom PresetsWhen you edit photos in the Lightroom Design module, you can create different effects and styles by changing many variables such as exposure, contrast, color, tone curve and so on. When you're happy with the look you've created, you can save your settings so you can use them again later in different photos. When you save the settings, a file with an .ltemplate extension is created and is called a standard. .ltemplate files are easy to install, we'll show you how to load your presets into your Lightroom application. You can download presets created by other photographers and use them on your photo, at Photofony we sell collections of presets for many different types of photography styles. You probably found us on Google because of the professional designs we offer in both our free preset bundles and our premium lightroom presets. How to install Lightroom PresetInstalling presets Lightroom is super simple, just follow these instructions: Open LightroomS in the top menu go to: Edit &t; Preferences Click on the Presets tab at the top of the box and then click on the box named: Show Lightroom Presets FolderIt will open the Windows File Explorer box. Double-click Lightroom, and then double-click Design PresetCopy your original settings in the Design preset folder. Restart LightroomYy preset will now be available for use in the Design section. How to use Lightroom Presets There are many ways to use our Adobe Lightroom Settings. Whether you're a professional photographer, blogger, business owner or hobbyist, our presets will make your photos pop. If you have professional photographer, you can apply presets to any of your client projects. This will save you countless hours of editing time while allowing you to wow your customers and create a beautiful, consistent portfolio. Maybe you're a business owner or blogger wanting your website or social media feeds to look more professional. If this is the case, our presets add an artistic touch to product, fashion, food and travel photography. If you're a photography newbie, there are many ways you can practice shooting and editing. Ask friends and family to model and create photos. Take a trip to the beach or mountains and practice your landscaping for photography. Regardless of your inspiration, we have a advance that will take your snapshots from amateur to professional in just a few simple clicks. Finally, if you really want to take your photography skills test, consider entering a photo contest to see how your pictures stack up against others. Our presets can give your photos a competitive advantage and take your entry from meh to amazing. We like to hear from people who use our presets to contact us with us if you want to share your pictures. For Sharing on Pinterest: Please leave a rating on our Free Lightroom PresetsAverage rating: 56 reviewsNice preset edition!!! filters look very good :-)) Downloads do not work anymore! liked presets a lot, but now there's no download available anymore. This is just a diversion to the main free-page. @Greece standards!?? Love them, Great JobGood preset mate, thank you!t's the beautiful starting points for photos, and learn how to edit!This looks really good! StunningObrigado!y nice presets!çok güzel bir presets teşekkür!ergood preset! see this standard so beautiful pictureThank you so much!Nice presetsMuito BoOoomso muito paogood presetsSuch beautiful presets! niceeeeeeee! I am a person without a budget but want to sharpen my craft and I would like to say THANK YOU! I love these presets, they're great! I've been using their presets for a while now and I love them! They are great and allow you to try different styles and decide if you buy a full bundle. Really great! Love these presets. They're doing such a good job! They are all good presets. Very good good
